

## **Notice**

University observed that while conducting inspection for various affiliations, the colleges attempt to offer gifts to the assessors and it is further disheartening to learn that designated assessors who are of repute are trying to accept the flimsy gifts which tarnish the image of these three units viz Affiliated college, Hon'ble Assessors and the University who all are working for maintaining the standard of medical education in the state of Punjab.

In case, it comes to the notice of University in further inspections, that this malpractice is still persisting, the University would be constrained to convey them the displeasure of the University ,to the head of the respective institutions from where the assessors belong and such assessors would not be assigned this sacred duty in future to assess the institution in term of manpower, infrastructure and quality of service and education being provided.

**Incorrigible assessors**, would be treated in terms of the rules of mitigating the corruption.
