

Notice

Important information regarding the admission to the Nursing Colleges for the various courses such as BSc Nursing, MSC Nursing and Post Basic Nursing for the session 2018-2019.

BFUHS is aware of the fact that the various Private Nursing institutes had been indulging themselves into the malpractice of fleecing the innocent students of the state as well as from outside the state of Punjab for getting admission into their college before the actual process of the common counseling being conducted by the University. At times colleges on their own send the mail on behalf of student and even bring the students for counseling to BFUHS, Faridkot. These colleges admit the students on their own, collect their original certificates and take full course fee from them. At the site of counseling, if student tend to change the colleges, they are not allowed to do so as they had already given the original certificates as well as fee to these colleges. Similarly, on subsequent counseling when these students change the college, then the colleges do not give original documents to the candidates and do not even return the fee which they have taken beforehand. In that case, students are forced to deposit the fee again, which is with lot of agony. Later the university is getting frequent complaints from candidates regarding these issues and important time of the university is wasted in sorting out this entire process. Moreover, this whole process of the admitting of the students by the Private Nursing colleges on their own is unethical.

It is very clear from the notification that only Baba Farid University of Health Sciences is a nodal agency to conduct the centralized counseling for all the nursing colleges in the state of Punjab. All the candidates are requested to fill their application forms independently on their own and not with the help of respective colleges, in which they want to take admission. Moreover, if they come across any college who is luring them for such malpractice and additional benefit of taking seat in their college, they shall report it to the university immediately. The confidentiality of the candidate shall be maintained under all the circumstances that bring out to notice such malpractice. In case, the candidate still becomes a party with these colleges in these colleges then University shall not be responsible for any consequences of the same in the future.

The concerned college authorities are warned that they should strictly comply with the instructions given by the Govt. of Punjab in the form of notification for concerned courses. In case, any college / representative of colleges is found guilty of doing such malpractice, then a strict disciplinary action shall be taken against these colleges, which may include de-affiliation or criminal action against the concerned college.

It is hereby advised to the candidates as well as the concerned authority to cooperate with the University for the smooth conduct of the counseling to be held for the session 2018.
