## Govt. Medical College, Patiala.

## Thesis Plan of MD/M.Sc Students admitted in session 2014-17

Sr. No.	Name of Department	Name of Student	Topic
1.	MD Anaesthesia	Dr. Naveen Kumar	Comparative study of unlateral spinal block with 0.5% hyperbaric bupivacaine and clonidine versus 0.5% gyperbaric pupivacaine alone for anaesthesia and perioperative analgesia in patients undergoing lower limb orthopaedic surgeries.
2.	MD Chest & TB	Dr. Anand Kumar Bansal	Prospective study of demographic and clinico-radiological profile of patients presenting with pleural effusion.
3.	MD Chest & TB	Dr. Varinder Singh	Prospective study of epidemiology and risk factors responsible for the development of multidrug-resistant tuberculosis.
4.	MD Chest & TB	Dr. Hardik Jain	The correlation of aspergillus skin hypersensitivity with the duration and severity of asthma
5.	MD Chest & TB	Dr. Muralidharan	Prevalence of tuberculosis among household contacts of multiple drug resistant tuberculosis patients.
6.	M.Sc Anatomy	Ms. Smily	Correlation of anthropometric parameters in females with blood pressure in different endogamous
7.	M.Sc Anatomy	Mr. Rupinder Singh	Anatomy of lumbar interspinous ligaments in 30 adult human cadavers.
8.	M.Sc Biochemistry	Ms. Priya Duvedi	Contemporary role of prostate specific antigen (PSA) in prostate diseases.
9.	MD Medicine	Dr. Aditya Duggal	Role of vitamin D3 supplementation as an adjuvant therapy in statin treated dyslipidemias.
10.	MD Medicine	Dr. Ankit Bansal	To study the prevalence of metabolic syndrome among HIV-Infected patients.
11.	MD Medicine	Dr. Husan Pal	Study of gender diffrences in risk profile, clinical presentation and other aspects of ischemic heart disease,
12.	MD Medicine	Dr. Kamal Preet Singh	Study of electrocardiographic and echocardiographic changes in patients with chronic kidney disease.
13.	MD Medicine	Dr. Karanpartap Singh	Electrocardiographic changes in acute stroke patients.
14.	MD Medicine	Dr. Rahul	Evaluation of serum uric acid levels in essential hypertension.
15.	MD Medicine	Dr. Salil Jaura	Relationship of serum sodium levels with myocardial infarction.
16.	MD Medicine	Dr. Saruchi Garg	Comparison of prevalence of dyslipidemia and carotid

diagnosed HIV reactive patients and those on art.				atherosclerosis among newly
Ithose on art.   Study of haematological profile in HIV patients in correlation to CD4 count.				
17. MD Medicine   Dr. Suresh Kumar   Study of haematological profile in HIV patients in correlation to CD4 count.				
HIV patients in correlation to CD4 count.	17.	MD Medicine	Dr. Suresh Kumar	Study of haematological profile in
Count.   Non invasive predictors of esophageal Vs in cirrhosis of liver.				
Vs in cirrhosis of liver.				_
19. MD Medicine   Dr. Sourabh Murarka   Study of cardiovascular manifestations in newly diagnosed hypothyroid patients.	18.	MD Medicine	Dr. Suprabha	Non invasive predictors of esophageal
manifestations in newly diagnosed hypothyroid patients.				Vs in cirrhosis of liver.
hypothyroid patients.	19.	MD Medicine	Dr. Sourabh Murarka	Study of cardiovascular
20. MD Medicine   Dr. Pallav Jain   To study trasfusion support in cancer patients in tertiary care hospital (RHP).				manifestations in newly diagnosed
Datients in tertiary care hospital (RHP).				hypothyroid patients.
21. MD   Microbiology   Dr. Faria Ashraf   Detection of Metallo beta lactamase production preudomonas aeruginosa in various clinical samples received from Rajndra Hospital, Patiala	20.	MD Medicine	Dr. Pallav Jain	To study trasfusion support in cancer
Dr. Faria Ashraf   Detection of Metallo beta lactamase production preudomonas aeruginosa in various clinical samples received from Rajndra Hospital, Patiala				patients in tertiary care hospital
Microbiology   production preudomonas aeruginosa in various clinical samples received from Rajndra Hospital, Patiala				` ,
in various clinical samples received from Rajndra Hospital, Patiala  22. MD Paediatircs  Dr. Dipti.B  The effect of counseling on the reporting of sexual abuse in children aged 12-17 years, A study from the schools of patiala.  23. MD Paediatircs  Dr. Inder Kumar  Study of urinary uric acid to creatinine ratio as a marker of perinatal asphyxia.  24. MD Paediatrics  Dr. Ankur Handa  To assess hepatic function (LFTs), serum iron and TIBC in thalassemia major children  25. MD Paediatrics  Dr. Gaurav Gupta  A study of thyroid function in thalassemia major children.  To study the variability in temperature recorded at different sites (axilla, groin, popliteal and plantar aspect of base of toes) in new borns as compared to rectal temperature.  27. MD Paediatrics  Dr. Parminder Kaur  Breathing pattern in healthy preterm babies.  To study the incidence of Birth asphyxia and modes of resusritation used in Rajindra Hospita, Patiala.  Histopathological pattern in lung specimen of post-mortem cases with a minimum of 100 cases of more than 18 years of age.  MD Pathology  Dr. Deepika  Bone marrow findings in cases of	21.		Dr. Faria Ashraf	
22. MD Paediatires   Dr. Dipti.B   The effect of counseling on the reporting of sexual abuse in children aged 12-17 years, A study from the schools of patiala.		Microbiology		
Dr. Dipti.B   The effect of counseling on the reporting of sexual abuse in children aged 12-17 years, A study from the schools of patiala.				_
reporting of sexual abuse in children aged 12-17 years, A study from the schools of patiala.  23. MD Paediatircs Dr. Inder Kumar Study of urinary uric acid to creatinine ratio as a marker of perinatal asphyxia.  24. MD Paediatrics Dr. Ankur Handa Tosesses hepatic function (LFTs), serum iron and TIBC in thalassemia major children  25. MD Paediatrics Dr. Gaurav Gupta A study of thyroid function in thalassemia major children.  26. MD Paediatrics Dr. Mehak Arora Tostudy the variability in temperature recorded at different sites (axilla, groin, popliteal and plantar aspect of base of toes) in new borns as compared to rectal temperature.  27. MD Paediatrics Dr. Parminder Kaur Breathing pattern in healthy preterm babies.  28. MD Paediatrics Dr. Samandeep Kaur To study the incidence of Birth asphyxia and modes of resusritation used in Rajindra Hospita, Patiala.  29. MD Pathology Dr. Bhavleen Histopathological pattern in lung specimen of post-mortem cases with a minimum of 100 cases of more than 18 years of age.  30. MD Pathology Dr. Deepika Bone marrow findings in cases of				
aged 12-17 years, A study from the schools of patiala.  23. MD Paediatires Dr. Inder Kumar Study of urinary uric acid to creatinine ratio as a marker of perinatal asphyxia.  24. MD Paediatrics Dr. Ankur Handa Tassess hepatic function (LFTs), serum iron and TIBC in thalassemia major children  25. MD Paediatrics Dr. Gaurav Gupta A study of thyroid function in thalassemia major children.  26. MD Paediatrics Dr. Mehak Arora To study the variability in temperature recorded at different sites (axilla, groin, popliteal and plantar aspect of base of toes) in new borns as compared to rectal temperature.  27. MD Paediatrics Dr. Parminder Kaur Breathing pattern in healthy preterm babies.  28. MD Paediatrics Dr. Samandeep Kaur To study the incidence of Birth asphyxia and modes of resusritation used in Rajindra Hospita, Patiala.  29. MD Pathology Dr. Bhavleen Histopathological pattern in lung specimen of post-mortem cases with a minimum of 100 cases of more than 18 years of age.  30. MD Pathology Dr. Deepika Bone marrow findings in cases of	22.	MD Paediatircs	Dr. Dipti.B	
Schools of patiala.				
Dr. Inder Kumar   Study of urinary uric acid to creatinine ratio as a marker of perinatal asphyxia.				
Creatinine ratio as a marker of perinatal asphyxia.		1000	D 1 1 11	
24. MD Paediatrics Dr. Ankur Handa To assess hepatic function (LFTs), serum iron and TIBC in thalassemia major children  25. MD Paediatrics Dr. Gaurav Gupta A study of thyroid function in thalassemia major children.  26. MD Paediatrics Dr. Mehak Arora To study the variability in temperature recorded at different sites (axilla, groin, popliteal and plantar aspect of base of toes) in new borns as compared to rectal temperature.  27. MD Paediatrics Dr. Parminder Kaur Breathing pattern in healthy preterm babies.  28. MD Paediatrics Dr. Samandeep Kaur To study the incidence of Birth asphyxia and modes of resusritation used in Rajindra Hospita, Patiala.  29. MD Pathology Dr. Bhavleen Histopathological pattern in lung specimen of post-mortem cases with a minimum of 100 cases of more than 18 years of age.  30. MD Pathology Dr. Deepika Bone marrow findings in cases of	23.	MD Paediatires	Dr. Inder Kumar	
24.   MD Paediatrics   Dr. Ankur Handa   To assess hepatic function (LFTs), serum iron and TIBC in thalassemia major children     25.   MD Paediatrics   Dr. Gaurav Gupta   A study of thyroid function in thalassemia major children.     26.   MD Paediatrics   Dr. Mehak Arora   To study the variability in temperature recorded at different sites (axilla, groin, popliteal and plantar aspect of base of toes) in new borns as compared to rectal temperature.     27.   MD Paediatrics   Dr. Parminder Kaur   Breathing pattern in healthy preterm babies.     28.   MD Paediatrics   Dr. Samandeep Kaur   To study the incidence of Birth asphyxia and modes of resusritation used in Rajindra Hospita, Patiala.     29.   MD Pathology   Dr. Bhavleen   Histopathological pattern in lung specimen of post-mortem cases with a minimum of 100 cases of more than 18 years of age.     30.   MD Pathology   Dr. Deepika   Bone marrow findings in cases of				
serum iron and TIBC in thalassemia major children  25. MD Paediatrics Dr. Gaurav Gupta A study of thyroid function in thalassemia major children.  26. MD Paediatrics Dr. Mehak Arora To study the variability in temperature recorded at different sites (axilla, groin, popliteal and plantar aspect of base of toes) in new borns as compared to rectal temperature.  27. MD Paediatrics Dr. Parminder Kaur Breathing pattern in healthy preterm babies.  28. MD Paediatrics Dr. Samandeep Kaur To study the incidence of Birth asphyxia and modes of resusritation used in Rajindra Hospita, Patiala.  29. MD Pathology Dr. Bhavleen Histopathological pattern in lung specimen of post-mortem cases with a minimum of 100 cases of more than 18 years of age.  30. MD Pathology Dr. Deepika Bone marrow findings in cases of		165 5 11 1		
major children	24.	MD Paediatrics	Dr. Ankur Handa	
25. MD Paediatrics   Dr. Gaurav Gupta   A study of thyroid function in thalassemia major children.     26. MD Paediatrics   Dr. Mehak Arora   To study the variability in temperature recorded at different sites (axilla, groin, popliteal and plantar aspect of base of toes) in new borns as compared to rectal temperature.     27. MD Paediatrics   Dr. Parminder Kaur   Breathing pattern in healthy preterm babies.     28. MD Paediatrics   Dr. Samandeep Kaur   To study the incidence of Birth asphyxia and modes of resusritation used in Rajindra Hospita, Patiala.     29. MD Pathology   Dr. Bhavleen   Histopathological pattern in lung specimen of post-mortem cases with a minimum of 100 cases of more than 18 years of age.     30. MD Pathology   Dr. Deepika   Bone marrow findings in cases of				
thalassemia major children.  26. MD Paediatrics Dr. Mehak Arora To study the variability in temperature recorded at different sites (axilla, groin, popliteal and plantar aspect of base of toes) in new borns as compared to rectal temperature.  27. MD Paediatrics Dr. Parminder Kaur Breathing pattern in healthy preterm babies.  28. MD Paediatrics Dr. Samandeep Kaur To study the incidence of Birth asphyxia and modes of resusritation used in Rajindra Hospita, Patiala.  29. of skin-a study of 100 cases.				* * *
32. MD Pathology Dr. Jasneet Kaur Evaluation of hematological	32.	MD Pathology	Dr. Jasneet Kaur	
parameters among HIV reactive				parameters among HIV reactive
patients on antiretroviral therapy and				
treatment naive patients: A				treatment naive patients: A
comparative study				

33.	MD Pathology	Dr. Kimi Chhabra	Prothrombin time and activated partial thromboplastin time co-relation in case of liver disease- A study of 100 cases.
34.	MD Pathology	Dr. Mandeep Aulakh	The Clinical, histopathological and HPV genome correlation in oral cavity/ orophryngeal tumours - A study of 100 cases.
35.	MD Pathology	Dr. Navpreet Kaur	Histopathology, PAP SMEAR and HPV genome in suspicious cervix.
36.	MD Pathology	Dr. Ramandeep Kaur	immunohistochemical profile of infiltrating ductal carcinoma breast (Not otherwise specified)- A study of 100 cases
37.	MD Pathology	Dr. Swarupa Chakma	Clinicopathological correlation of erythroderma cases- A study of 60 cases.
38.	MD Pharmacology	Prashant	A study of prescribing pattern, cost of medical therapy and quality of life in patients of metabolic syndrome in north indian population.
39.	MD Pharmacology	Dr. Hema Chhabra	To compare the effect of benzalkonium chloride-preserved latanprost and benzalkonium chloride-free latanoprost on ocular surface health in patients of primary open angle glaucoma or ocular hypertension.
40.	MD Psychiatry	Dr. Jitender Nagpal	To study psychosocial stressors and quality of life in shift duty health professionals
41.	MD Psychiatry	Dr. Satinder Kaur	To study the psychiatrics morbidity and psychosocial stressors in adolescents attending psychiatry opd in a tertiary care hospital.
42.	MD Radiodiagnosis	Dr. Amanjeet Kaur	Ultrasound evaluation of fetal central nervous system anomalies and its corelation with postnatal outcome.
43.	MD Radiodiagnosis	Dr. Jasvir Singh	Imaging evaluation of gall bladder wall thickening and its correlation with clinical and histopathological findings.
44.	MD Radiodiagnosis	Dr. Naveen Chandrashekhar	Role of computed tomography in the evaluation of colorectal lesions
45.	MD Radiodiagnosis	Dr. Samrin Haq	Correlatin of computed tomography features and extracreainal carotid doppler findings in patients with acute ischemic stroke.
46.	MD Radiodiagnosis	Dr. Sangeeta Pamnani	Role of ultrasound in diagnosis of fetal congenital abdominal anomalies: One and half year prospective study.
47.	MD Radiodiagnosis	Dr. Shivani Sharma	The role of echocardiography in prenatal screening of congenital

			structural heart dieases and its
			correlation with postnatal outcome.
48.	MD Radiodiagnosis	Dr. Simran Bali	Comparative evaluation of ultrasonography and findings in focal hepatic masses.
49.	MD Radiodiagnosis	Dr. Sugandha Garg	Evaluation and comparison of IOTA Logistice regression models LR1 and LR2 in Prediction risk of ovarian malignancy
50.	MD Skin & VD	Dr. Aastha Sharma	Cutaneous manifestations in pregnancy
51.	MD Skin & VD	Dr. Ravinder Singh	Dermatosis in chronically photo exposed parts- a study of clinicohistopathologwical correlation
52.	MD Skin & VD	Dr. Sarvjit Kumari	Pruritic and papular eruptions in HIV patients- A study of clinicopathological correlation.
53.	Obst. & Gynae	Dr. Harnavneet Kaur	Correlation of vaginal pH with FSH levels in menopause.
54.	Obst. & Gynae	Dr. Himani	Study of the relation of BMI with dysmenorrhea in adolescents
55.	Obst. & Gynae	Dr. Ramiti Gupta	A study of midtrimester measurment of cervical length by transvaginal USG as a predictor of preterm labour.
56.	Obst. & Gynae	Dr. Ravneet Kaur	Effect of increased body mass index on fetomaternal outcome in nulliparous women delivering singleton babies.
57.	Obst. & Gynae	Dr. Santosh Kumari	A comparative study of combination of intra cervical catheter and intra vaginal misoprostol versus intra vaginal misoprostol alone in induction of labour.
58.	Obst. & Gynae	Dr. Simrat Kaur	Correlation of LBC, HPV & Colposcopy in in suspicious cervix
59.	Obst. & Gynae	Dr. Surbhi Saini	Comparison of effect of drotavarine hydrochloride and a combination of hyoscine-n-butyl bromide with valethamate bromide on the duration of active phase of labor
60.	Obst.& Gynae	Dr. Amandeep Kaur	Correlation of maternal outcome of eclampsia with findings of computed tomgraphy scan of head.
61.	Obts. & Gynae	Dr. Namita Chopra	Correlation of ultrasound with histopathology for retained

			products of conception in
			medically managed abortions.
62.	Pathology	Dr. Jasmine Kaur	Estrogen and progesterone
02.	1 autology	Khanna	receptor status in ovarian
		Kilailia	neoplasms and their
			histopathogical correlation
63.	Ophthalmology	Dr. Shipra Gupta	Quality of life in cataract patients.
64.	Ophthalmology	Dr. Heena Rajput	Visual outcome after cataract
	Ophinamiology	Di. Heena Rajput	(SICS) surgery in routine Vs
			hospital based camp patients.
65.	Ophthalmology	Dr. Navreet Kaur	Comparison of postoperative
			macular edema in diabetic patients
			in manual sics Vs
			phacoemulsification.
66.	Anaesthesia	Dr. Gurpreet Kaur	To evaluation the comparison of
		Atwal	intubating conditions using
			fentanyl plus propofol versus
			fentayl plus midazolam during
			fiberoptic laryngoscopy.
67.	Anaesthesia	Dr. Ajay Kumar Basra	Comparing the ease of insertion
			and haemodynamic changes of
			laryngeal mask airway and
			combitube in patients undergoing
			general anaesthesia.
68.	Ophthalmology	Dr. Ekta Gupta	A comparative study of posterior
			capsule opacification following
			hydrophillic acrylic hydrophobic
			acrylic and rigid
			polymethylmethaacrylate
69.	Onbthalmalagy	Dr. Shweta	(PMMA), Intraocular lens.  To study ophthalmic manifestation
09.	Ophthalmology	DI. Silweta	in migraine.
70.	E.N.T	Dr. Himanshu C. Bayad	The study of use of toluidine blue
70.	1.11.1	Di. Himanshu C. Dayau	as an adjunctive tool to clinical
			examination in early diagnosis of
			oral premalignant lesions and oral
			malignant lesions.
71.	Anaesthesia	Dr. Priyanka Gupta	Evaluation of hemodynamic
		J Oup tu	response to induction and
			incidence of myochonus with
			etomidate and propofol.
72.	Anaesthesia	Dr. Rupali	A comparative study of effects of
		•	ropivacaine versus ropivacaine and
			fentantyl in spinal anaesthesia for
			caesarean section.
73.	Anaesthesia	Dr. Deepinder Kaur	A comparative evalutaionof
		_	haemodynamic changes and
			intubating conditions with
			succinylcholine and rocuronium.
74.	Anaesthesia	Dr. Parul Rani	Pre-emptive analgesia by

			intraperitoneal instillation of Ropivacaine in laparoscopic cholecystectomy.
75.	Radio-diagnosis	Dr. Rajiv Bhalla	Correlation between high- resolution computed tomography features and spirometry findings in interstitial lung diseases.
