

**National Dental College, Dera Bassi**

**Plan Of Thesis For Approval (Student Admitted in 2011)**

Sr .No	Name of Candidate	Specialty	Topic Of Thesis
--------	-------------------	-----------	-----------------

Sr. No	Name of Candidate	Specialty	Proposed topic of thesis
1.	Dr. Kanika Aggarwal	MDS (Conservative Dentistry & Endodontics)	“Analytic effectiveness of root canal sealers and drying agents on bond strength of fibreglass post cemented with self adhesive resin cement” - An in vitro study.
2.	Dr. Monika	MDS (Conservative Dentistry & Endodontics)	“Analysis of root canal anatomy & morphological variations of maxillary 1 <sup>st</sup> molar by different methods “-An in vitro study.
3.	Dr. Nisha Kaler	MDS (Conservative Dentistry & Endodontics)	“Comparative analysis of the role of intracanal anti-inflammatory medicament on the incidence and intensity of postoperative pain in single visit root canal therapy..
4.	Dr. Sumita Singh	MDS (Oral & maxillofacial Surgery)	“Immediate implant placement by flapless technique” :- A clinical and radiographic evaluation..
5	Dr. Vivek Sunda	MDS (Oral & maxillofacial Surgery)	“Comparison of sutureless versus conventional wound closure in postoperative healing after impacted mandibular third molar surgery” .
6.	Dr. Kavita Sharma	MDS (Pedodontics)	Evaluative comparison of working length accuracy in primary root canals using different clinical techniques and stereomicroscopy
7.	Dr. Devinderjit Kaur	MDS (Pedodontics)	“Lesion sterilization and tissue repair (LSTR) treatment of pulpally involved primary teeth using different antibacterial combinations :- A clinical trial.
8.	Dr. Alisha Khan	MDS (Pedodontics)	Bond strength comparison of self versus total-ETCH bonding systems to sound deciduous and permanent tooth dentin along with SEM evaluation of the resin-dentin interface : - An in vitro study.
9.	Dr. Kanika Mohindra	MDS (Periodontology)	Comparative evaluation of crestal bone changes after delayed and immediate implant placement.
10.	Dr. Sonia	MDS (Periodontology)	Evaluation of the oxidative stress by estimating the levels of superoxide dismutase, glutathione and lipid peroxidation in saliva of smokers and non-smokers with chronic periodontitis
11.	Dr. Ruchika Jaswal	MDS (Periodontology)	Evaluation of 0.2% chlorhexidine mouthwash with an antidiscoloration system versus 0.2% chlorhexidine mouthwash – A prospective clinical study
12.	Dr. Neha	MDS (Periodontology)	Comparative evaluation of plaque removing efficacy of three different types of tooth brushes :- A clinical crossover study.
