

**National Dental College & Hospital , Dera Bassi**

Sr. No.	Name of Candidate	Specialty	Topic of Thesis
1.	Gita Chopra	MDS (Oral & Maxillofacial Surgery)	Platelet rich fibrin enhanced tissue regeneration after surgical removal of impacted mandibular third molars- “A Comparative study”
2.	Dr. Danish Sharma	MDS (Oral & Maxillofacial Surgery)	Tissue Adhesive vs suturing for closure of surgical wound after the removal of impacted mandibular third molars-“ A Comparative Study”
3.	Dr. Jasmine Kaur	(MDS) Periodontology & Oral Implantology	Clinical Evaluation of the local Drug delivery of 0.5% Azithromycin gel in the management of Grade II furcation involvement: “A Prospective Clinical Study”
4.	Dr. Simi	(MDS) Periodontology & Oral Implantology	Clinical Effectiveness of Hyaluronic Acid Gel in the Interdental papilla Reconstruction
5.	Dr. Kawaldeep Kaur	(MDS) Periodontology & Oral Implantology	Assessment of Gingival Zenith Variation in Maxillary Anterior Teeth in Healthy Periodontium
6.	Dr. Swati Gupta	Periodontology & Oral Implantology	Effectiveness of Topical Application of melatonin as an Adjunct to scaling and root planning in the management of Chronic Periodontitis- “A Randomized, Placebo- Controlled Study”
7.	Dr. Meenakshi Jnagal	Pedodontics & Preventive Dentistry	Comparing the Success rate of Single- Visit and Multi-Visit Endodontic Treatment in Primary and Permanent Molars prepared with rotary instruments :” An In Vivo Study”.
8.	Dr. Manpreet Kaur	Pedodontics & Preventive Dentistry	Evaluating the Clinical and Radiographic success rate of Manual and Rotary instrumentation for root canal Preparation in Primary and Permanent Molars- “ An in Vivo Study”
9.	Dr. Jasleen Sachdeva	Pedodontics & Preventive Dentistry	Clinical Evaluation of three different post system in Primary Maxillary Anterior Teeth prepared by Hand and Rotary Instrument- “ An in Vivo Study”
10.	Dr. Anita Kalsi	Conservative Dentistry & Endodontics	Comparative Evaluation of 17% EDTA, 17%EDTAC, 10% CITRIC ACID and HORSE GRAM as an Effective Irrigant for Removal of Smear Layer Under Sem- “An In Vitro Study”
11.	Dr. Reetika Sharma	Conservative Dentistry & Endodontics	A comparative evaluation of depth of tubular penetration of different root canal sealers : An in vitro confocal microscopic study
12.	Dr. Kanwarpreet Singh	Conservative Dentistry & Endodontics	Confocal analysis of the gingival microleakage in class II composite resin restoration and using different restorative techniques with and without CPP-ACP application : An in vitro study
13.	Dr. Vikas	Conservative Dentistry & Endodontics	Determination of significance of time while placement of composite over calcium silicate based materials. – A SEM study.
